## Call for Bootcamp

This year, the Workshop on Circuits and Systems Design will introduce a Bootcamp session of up to 3.5 h duration.

Topics of interest are:

- design verification,
- design for testability,
- signal integrity,
- other related subjects.

Proposal applications should be sent to [wcas2023\\_n@softconf.com](mailto:wcas2023_n@softconf.com) according to the schedule below and will be evaluated by a committee composed by industry and academy experts. Evaluation criteria will be based mainly on the following points: relevance to the semiconductor and electronics industry in Brazil, proposed program, hands-on practice activity, suitability to the short time frame schedule.
