Journal of **I**ntegrated **C**ircuits and **S**ystems

Volume 4 • Number 1 • March 2009 • ISSN 1807-1953

The **Journal of Integrated Circuits and Systems (JICS)** is a publication from SBMicro – Brazilian Microelectronics Society and SBC – Brazilian Computer Society whose are non-profit scientific societies aiming to foster the microelectronics and computer science teaching, research and development.

Editor-in-chief:

João Antonio Martino, University of Sao Paulo, Brazil

Co-Editor:

Marcelo Lubaszewski, Federal University of Rio Grande do Sul, Brazil

Associate Editors:

Process and Materials

Jacobus Swart, State University of Campinas, Brazil

Magali Estrada, CINVESTAV, Mexico

Olivier Bonnaud, University of Rennes, France

Devices and Characterization

Marcelo Antonio Pavanello, FEI University, Brazil

Cor Claeys, IMEC, Belgium

Design

Rajesh Gupta, UCSD, USA

Test

Michel Renovell, LIRMM, France

FOREWORD

This issue of the Journal of Integrated Circuits and Systems (JICS) includes papers on analog design, design for yield, design for security and dynamically reconfigurable architectures. These papers have been selected from the presentations given at SBCCI2008 (21st Symposium on Integrated Circuits and Systems Design), which has been held in Gramado, Brazil in 2008. Among the contributions presented at SBCCI2008, only a few best rated by the reviewers were selected by the JICS Editorial Board and have been invited to submit an extended version. These papers have been submitted to the usual reviewing process with the help of external experts.

We would like to thank the authors for their effort in preparing these high quality papers, as well as the reviewers for their help on paper selection, which guarantees the scientific level of this issue. We sincerely hope that JICS readers will enjoy these contributions.

João Antonio Martino
JICS Editor-in-chief

Marcelo Lubaszewski
JICS Co-Editor

JICS - Journal of Integrated Circuits and Systems

Manuscript Preparation:

General:

Editors reserve the right to adjust style to certain standards of uniformity. Original manuscripts are discarded one month after publication unless the Publisher is asked to return original material after use. Please use Word or Word Perfect files for the text of your manuscript.

Structure:

We suggest following this order when typing manuscripts: Title, Authors, Affiliations, Abstract, Keywords, Main text, Acknowledgements, Appendix, References, Figure Captions and then Tables. Please supply figures imported into the text AND also separately as original graphics files. Collate acknowledgements in a separate section at the end of the article and do not include them on the title page, as a footnote to the title or otherwise.

Text Layout:

The manuscript must be typed using double spacing and wide A4 paper (3 cm) margins (Top, Bottom, Left, Right) with 12 pt Times New Roman font size up to 18 pages (maximum). Present tables and figure legends on separate pages at the end of the manuscript. All the manuscript pages must be numbered consecutively.

Abstract:

A self-contained abstract outlining in a single paragraph the aims, scope and conclusions of the paper must be supplied.

Keywords:

Immediately after the abstract, please provide a maximum of six keywords (avoid, for example, 'and', 'of'). Be sparing with abbreviations: only abbreviations firmly established in the field may be eligible.

Symbols:

As there is considerable variation in nomenclature and unit systems from country to country, authors are required to include a list of symbols, which they have used in their manuscripts, and of the units in which the corresponding qualities are measured. Another possibility is to define the symbols along the manuscript. SI units should be used where possible.

Units:

Follow internationally accepted rules and conventions: use the international system of units (SI). If other quantities are mentioned, give their equivalent in SI.

Maths:

Number consecutively any equations that have to be displayed separately from the text (if referred to explicitly in the text).

References:

All publications cited in the text should be presented in a list of references following the text of the manuscript. Along the text, indicate references by number(s) in square brackets in line with the text.

The papers are submitted online following the link www.sbmicro.org.br/jics.

After acceptance, the author will be notified about the final paper format to be submitted for printing.

Call for Papers

SBCCI is an international forum dedicated to integrated circuits and systems design, test and CAD, held annually in Brazil. The SBCCI2010 will be located in Sao Paulo, Brazil. The goal of the symposium is to bring together researchers in the areas of computer-aided design, design and test of integrated circuits and systems. The scope of the symposium includes technical sessions, tutorials and panels, as well as exhibition and working group meetings. The best papers presented at the symposium will be invited to resubmit an extended version that will be considered for publication at the IEEE Design&Test of Computers and JICS - Journal of Integrated Circuits and Systems. The SBCCI2010 will occur in the same venue as SBMicro2010- 25th Symposium on Microelectronics Technology and Devices.

General Chair:

Joao Antonio Martino
(martino@lsi.usp.br)
University of Sao Paulo - Brazil

Program Chairs:

Guido Araújo
(guido@ic.unicamp.br)
UNICAMP - Brazil

Alex Orailoglu
(alex@cs.ucsd.edu)
UC San Diego - USA

Local Arrangements:

Paula Ghedini Der Agopian
USP - Brazil

Michelly de Souza
FEI - Brazil

Tutorials Chair:

Sergio Bampi
UFRGS - Brazil

Finance Chair:

Victor Sonnenberg
FATEC - Brazil

Publicity Chair:

Marcelo Lubaszewski
UFRGS - Brazil

Industrial Liaison:

Walter Santana
LSITEC - Brazil

US Liaison:

Luiz Franca Neto
Hitachi - USA
University of São Paulo - Brazil

Europe Liaison:

Reiner Hartenstein
Univ. Kaiserslautern - Germany

Latin America Liaison:

Fernando Silveira
IIE-UROU - Uruguay

IEEE Design&Test Liaison:

Ricardo Reis
UFRGS - Brazil

Topics of interest include, but are not limited to:

- System level modeling and synthesis
- Hardware-software co-design and co-verification
- High-level and logic synthesis
- Physical design
- Verification, simulation, emulation and prototyping techniques
- Testability issues, design for test techniques
- Reconfigurable architectures and novel applications of FPGAs
- Design and modeling languages and applications
- Analog, digital and mixed signal designs
- Embedded systems design and industrial applications
- Systems-on-chip, IP reuse and platform-based designs
- Low power tools and design techniques
- Integrated sensors and MEMs
- Nanoelectronic circuits and nanoarchitectures

SBCCI strongly encourages international submissions. Prospective authors from around the world are invited to submit manuscripts in English for consideration by the Program Committee. Manuscripts must contain a maximum of 10 pages, using 11-point font or larger and 1.5 or double spacing and prepared for blind review. Submissions of manuscripts previously published by other conferences or journals will not be considered by the program committee. SBCCI submissions must be made electronically (in PDF format) via the conference website. For proposals on special sessions, tutorials, panels and tool demos, please email a short description to the program chairs directly in advance of the submission deadline. For additional inquiries on submissions, please contact the program chairs. Final versions will be published as two-column, 6-page papers, following the ACM Press guidelines. Authors should include the complete address, phone/fax numbers and email address, and designate a contact person and a presenter.

Location:

Sao Paulo The Symposium will be held in the city of Sao Paulo, fondly nicknamed as "Sampa" by the Brazilians. Sao Paulo is a very diverse city with a large number of descendants of immigrants from Italy, Japan, Portugal, Spain, Germany and many other countries. Sao Paulo offers many attractions ranging from historic monuments, museums, music festivals, shopping, and a very dynamic nightlife with a wide range of nightclubs, bars and restaurants, arguably second to none in the world. Within easy reach from Sao Paulo the visitor will find a coastline filled with beautiful beaches as well as ecological parks. Rio de Janeiro can be reached in less than an hour through regular shuttle flights. Iguazu Falls is also about an hour flight from Sao Paulo.
