

WCAS2021

CHIP
in the Fields

11th Workshop on Circuits and Systems Design

August 23 to 27, 2021, Campinas, BRAZIL

sbmicro.org.br/chip-in-the-fields

Call for Papers

General Chair

Jacobus Swart, IMEC & UNICAMP, Brazil

Program Chairs

Eduardo R. de Lima, I. Eldorado, Brazil

Sandro Binsfeld Ferreira, UNISINOS, Brazil

Tutorials Chair

André Mariano, UFPR, Brazil

Publicity Chairs

Linnyer Ruiz, UEM, Brazil

Ricardo Reis, UFRGS, Brazil

Publication Chair

Bernardo Leite, UFPR, Brazil

Panels Chairs

Roberto Panepucci, CTI, Brazil

Davies Monteiro, UFMG, Brazil

Finance Chair

Jose Alexandre Diniz, UNICAMP, Brazil

Exhibition Chairs

Marcos Pimentel, CTI, Brazil

Saulo Finco, CTI, Brazil

Local Chairs

Lucas Zucchi, UNICAMP, Brazil

Ricardo Cotrin, CTI, Brazil

Aymara Villela, Swart SI, Brazil

For Track Chairs, Program Committee Members, International Liaison and other information, please take a look at the conference webpage

The 11th Workshop on Circuits and System Design – WCAS 2021 aims to bridge the gap between industry, academy, and R&D institutions, as well as to leverage national and international recognition to industry and individuals through technical-scientific publications. The workshop is devoted to the presentation and discussion of implementations and design experiences with a high degree of relevance in industrial, educational, or research, as well as innovative design methodologies and application of specific design technologies in an industrial context. The workshop is organized with industrial and academic tracks. Contributions should illustrate state-of-the-art implementations, designs, design methodologies, or tools, which will provide viable solutions in circuits and systems applied to current and emerging themes. The contribution should present electronic circuit and system design results from FPGA, ASIC prototypes, Embedded Systems, conventional electronics and simulation, microsystems, packaging, and assembly. Validated methodologies and techniques through demonstration are encouraged, but not mandatory.

Important Dates:

Paper Submission Deadline:

May 14th, 2021

Notification of Acceptance:

July 5th, 2021

Camera-Ready Deadline:

August 2nd, 2021

Sponsored by:

SBC - BRAZILIAN COMPUTER SOCIETY

SBMicro - BRAZILIAN MICROELECTRONICS SOCIETY

Organized by:

UNICAMP - Universidade Estadual de Campinas

Co-located with:

34th SBCCI - Symposium on Integrated Circuits and Systems Design

35th SBMicro - Symposium on Microelectronics Technology and Devices

21st SForum - Microelectronics Students Forum

5th INSCIT - International Symposium on Instrumentation Systems, Circuits and Transducers

UNICAMP
